

Desjoyaux
P O O L S

2021 COLLECTION

One swimming pool, thousands of happy moments.

Whether you are enjoying an early morning dip, taking a coffee break, immersed in a backstroke workout or merely dipping your toes in the water, your Desjoyaux pool is there to be enjoyed at any time of day.

Ideal for a post-work get-together with friends, a family diving contest or indulging in a night-time dip with your loved one, your swimming pool makes every moment happy and unique.

POOLS AFFORDABLE FOR ALL BUDGETS

Our wide range caters for all budgets: discover pools that are easy to manage and maintain (less than €1 a day*).

Desjoyaux technology has your convenience in mind. Thanks to our filtration system, no more need for winterisation or starting up again in spring.

Only 15 minutes a week

is needed to clean your pool in bathing season. Goodbye stress, hello good times.

Enjoy a new living space which will add value to your house and bring happiness to both young and old.

DESJOYAUX POOLS

OUR HISTORY

This is what a swimming pool can do:
bring people together and
create timeless memories.

HOW DID THE DESJOYAUX ADVENTURE BEGIN?

“ In the 1960s, we loved to spend our weekends together as a family in our holiday home in Cuzieu, birthplace of Desjoyaux. It was here that in 1966 my father built a pool for his children with his own hands, constructing it with tiles and reinforced concrete. This gave birth to a great adventure: in 1969, he set up his own company and built swimming pools for his friends. From then on, he dedicated his life to constructing pools as real spaces for living, sharing, playing and meeting for all generations. ”

WHAT CHILDHOOD MEMORIES DO YOU HAVE OF TIMES SPENT AROUND THE POOL?

“ As children, my sister Catherine, my brother Pierre-Louis and I discovered the joys of the water. Back then, private pools were a Hollywood phenomenon and still did not exist in France. It was a revelation: the pool was a source of fun, relaxation and conviviality. A photo shows these happy days: it was a scorching hot summer and my 7-year-old sister, smiling in her yellow swimsuit, and my brother and I were enjoying playing with a small model sailing boat decked out with a charming blue sail. Our friends and neighbours often joined us, eager to join in the fun of these moments of laughter, play and swimming. This is what a swimming pool can do: bring people together and create timeless memories. ”

Catherine, Pierre-Louis
and Jean-Louis Desjoyaux
in the first Desjoyaux pool
in 1966 in Cuzieu (42)

HOW DID YOU TURN YOUR PERSONAL EXPERIENCE INTO UNIQUE KNOW-HOW?

“ I joined the company when I was 17, did a course in bricklaying and tiling and then poured over copious management books, which emphasised the great importance of customer relations. To attract clients, we mechanised our business at the start of the 1970s and produced a series of innovations such as permanent active casing and the filtration unit, which have made us leaders and pioneers in the sector. We can therefore meet the needs of every client, whether they opt for a pool with a traditional shape or a free-form one, catering for all types of land around the world! ”

Jean-Louis Desjoyaux

Jean Desjoyaux

GLOBAL EXPERTISE

THE BIG LEAP TO THE GLOBAL MARKET

From the **very first store in La Fouillouse in 1978**, the firm went from strength to strength in France and across the world with its aim of making swimming pools affordable for the wider public.

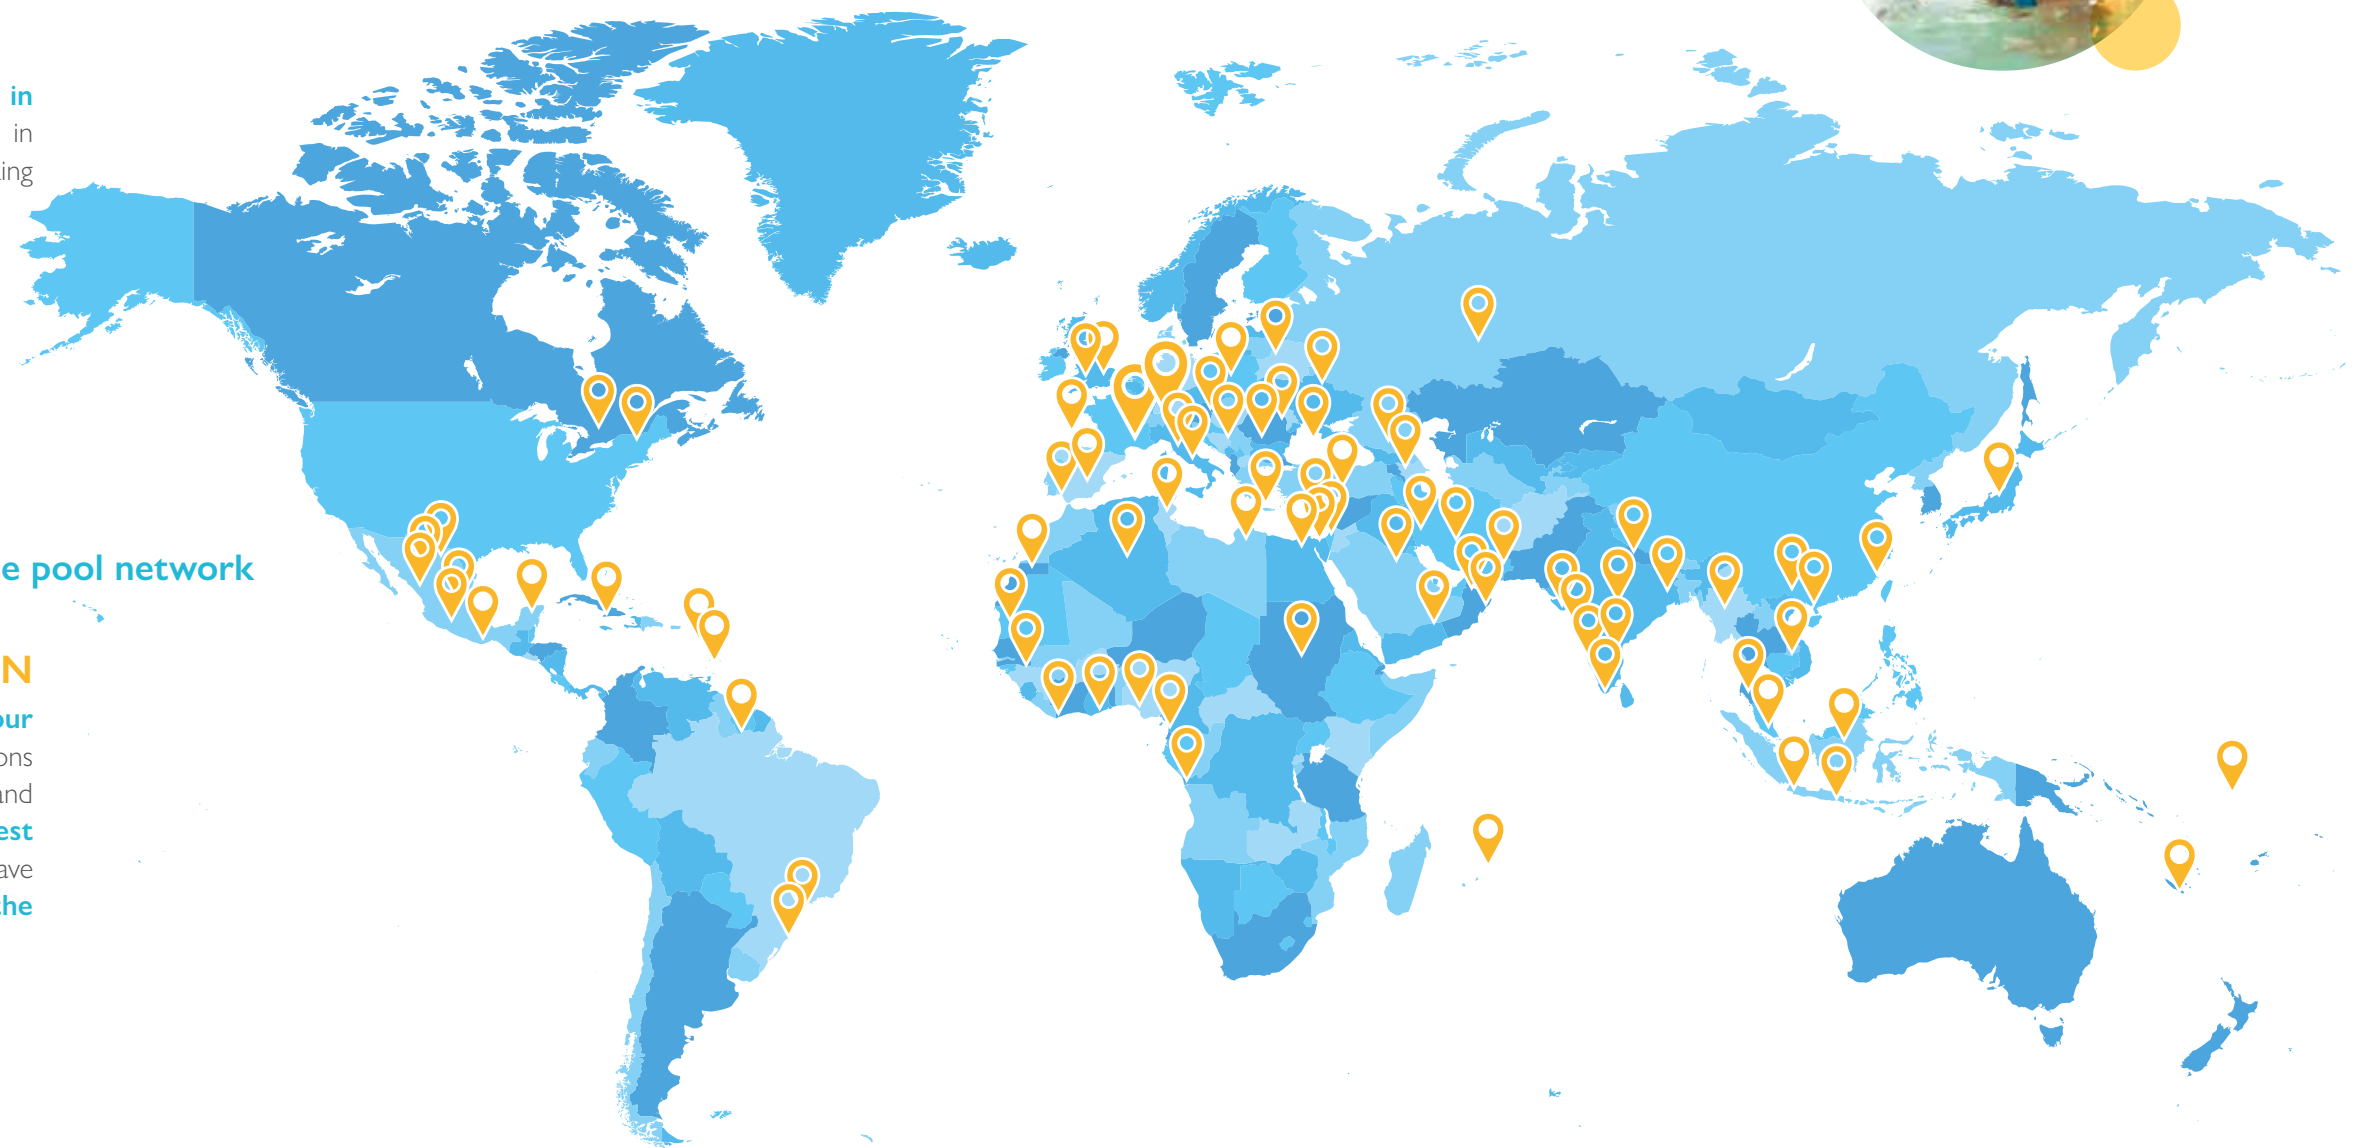

In 1984, Desjoyaux was a trailblazer, creating a network of exclusive dealerships.

Today:

- ▶ **Over 380 stores**
- ▶ **In five continents**
- ▶ **Over 220,000 installations**
- ▶ **Number 1 exclusive worldwide pool network**

THE DESJOYAUX GENERATION

The cornerstone of our international SME is **our family DNA**. The various Desjoyaux generations have worked hand in hand with dealerships and passionate tradespeople to **guarantee the best quality** at every link in the chain. Together, they have allowed the business to grow while preserving **the company's family spirit**.

WHAT SETS DESJOYAUX APART: THE DOUBLE CONCEPT

In 1978, Desjoyaux filed its first patent for **permanent active casing**.

But it didn't stop there!

In 1983, Desjoyaux broke new ground with its **pipeless filtration system**.

► **The double concept was born.**

1. CHOOSE THE SHAPE OF YOUR POOL WITHOUT COMPROMISING

Permanent active casing is a **Desjoyaux concept patented in 1978**, which achieved the technical feat of solving the equation of rapid installation, longevity, and freedom of form and dimensions.

The principle: **recycled polypropylene** panels are pre-assembled at the factory, and once installed onsite, are cast in concrete in a single operation. This exclusive procedure **ensures the solidity of your pool**.

Your Desjoyaux pool therefore has the double advantage of being a single-piece, free-standing structure, which enables us to offer you a 10-YEAR guarantee that is unique on the market.

2. SIMPLICITY GUARANTEEING EFFECTIVENESS: PIPELESS FILTRATION

Inspired by outboard motors on boats, **Desjoyaux's exclusive system patented in 1983** is designed to be **pipeless**. This avoids long and costly works to lay pipes and the need for a plant room. **No underground pipes** removes any stress and means there is **less risk of leakage!**

Whether built into the structure, straddling the wall of the pool or in the form of steps, our compact system includes all the elements of a traditional filtration unit: pump, piping, filter, spotlight.

Built-in filtration system
PFI 181

Efficient! This system can filter all of your pool's water in **ONLY TWO HOURS** for an 8 x 4 m pool, but also provides great quality of filtration thanks to a filter medium of up to 6 microns.

Zero pipes!

1. STRUCTURE

"The Desjoyaux casing is a real technological breakthrough! It is the invention of a unique, high-quality concept that is highly resistant, particularly to ice and ground movements."

2. FILTRATION

"The Desjoyaux filtration unit is very quick to install and also has the advantage of being upgradable to adapt to your needs."

Patrice, bricklayer with Desjoyaux for 20 years

3. LINER

"The liner is fixed very simply to the pool structure with a fixation profile. As well as ensuring the watertightness of your pool, the range of liners allows you to choose the colour of your water."

4. COPING

"Choose from different shapes, sizes, depths or shades to give the desired style to your new living space."

ENVIRONMENTALLY CONSCIOUS YET COST-EFFECTIVE

RECYCLE...

In the 1990s Desjoyaux introduced the **first 100% recycled swimming pool structure**.

We have now gone even further and added a plastics processing chain to the production site. This has allowed us to offer casing panels in recycled polypropylene.

SAVE MONEY!

The **Desjoyaux filtration system** helps you **save money**. Filtered, heated and disinfected water is not discharged into the wastewater system when the filter medium is cleaned. A further advantage is that there is **reduced electricity consumption** with less pipes and the pumps require less power. With a Desjoyaux pool, you consume **half as much electricity on average**. Who can top that?

LOW CONSUMPTION

Desjoyaux has always sought to protect the environment and it has chosen to make environmentalism a key feature of its approach.

ELECTRICITY

Pump 18 m³/hr 450 W/hr

WATER

On average: 1.5 m³/year
for washing the filter medium

SUPPLIES

1 filter medium per 3 years

► **And most importantly, you save on a plant room!**

DIVE INTO A TRULY FRENCH COMPANY

The Desjoyaux family has been designing and producing swimming pools in its production unit in Saint-Étienne (42 - Loire) since 1966. ■ ■

Our site has constantly evolved over the years to become a manufacturing base that is unique worldwide.

We have 45,000 m² of factory floor in which the various components of our swimming pools are manufactured. From the very beginning, Desjoyaux's policy has been centred on controlled, industrialised local production, guaranteeing a flawless and constant level of quality.

Made in France

DESJOYAUX ADVANTAGES

PROXIMITY

With 400 stores and 5,000 employees at your service around the world, we are truly close at hand. We are always there to **advise and guide you** in the choice of products for your swimming pool and to **support you** with our after-sales service.

Visit our stores to enjoy a range of products selected and approved by Desjoyaux!

SUPPORT

A single contact person supports you from start to finish: from the design to the implementation of your plans, allowing you to make the most of our over 50 years of experience. **Zero stress!**

Your contact person looks after everything and oversees progress in line with precise specifications. Every Desjoyaux member of staff has completed a specialised training course enabling them to **support you as effectively as possible**.

PEACE OF MIND

Any problems? No problem for us.

Since 1966, Desjoyaux has been making your dreams reality. Do you have a project in mind? We are there to help you bring it to life. **93%* of our customers** would recommend us. So what are you waiting for? Dive right into a Desjoyaux pool!

OUR RANGES

THE POOL THAT SUITS YOU BEST

Whatever you have in mind, we have a solution that suits your budget:
Pool&Play, a quality pool at an unbeatable price and **Exclusive**, a customisable
solution for the pool of your dreams.

FLAT SHELTERS

The flat shelter protects your pool from leaves and outside pollution all year round. It also allows for easier winterisation and post-winter start-up, with reduced upkeep. Compliant with standard NF P 90-309.

- Discreet and pleasing to the eye, it blends into the background and complements all styles of architecture.

HEAT PUMPS

Cost-effective and easy to install, the heat pump has a simple operating mechanism: it captures calories from the outside air and returns them directly to the water.

JD PAC Access Range

- High-performance
- Cost-effective
- Quiet

TREATMENT

Find all our cleaning products in Desjoyaux stores!

BAR COVERS

The bar cover protects your swimming pool in both summer and winter. It keeps heat in and limits the growth of algae and micro-organisms thanks to its opacity.

JD All seasons cover Bar cover

ALARMS

A pool alarm is a relatively inexpensive way to ensure your pool is compliant.

Précisio Alarm

BARRIERS

The removable barrier protects access to the pool while remaining practical: it can be removed in an instant if need be!

JD Barrier +

ELECTRIC ROBOT CLEANERS

Keep your pool clean with a minimum of time and effort, thanks to our robot pool cleaners. Everything you need for daily cleaning of your pool!

THE FILTER MEDIUM

Crystal clear

- 2.6 m² of filter surface
 - Degree of filtration: 600 and 20 microns
 - Double protective grille for superior drainage
 - Handle for easier extraction
- ▶ As a bonus, you also get two more filter bags of 6 microns and 30 microns.

LED LIGHTING

Light up your summer nights

- 6 watts and 484 lumens
- Lifespan: 50,000 hours
- As standard in the filter compartment

Inspiration no. 1 EXCLUSIVE

A sunny terrace, an outdoor lounge... the ideal setting for making the most of your swimming pool. This 9 x 4 m pool will fit right into your formula for the perfect summer!

Above-ground pool cover
to secure your pool and conserve heat.

Gres Porcelain coping in sand colour
to perfectly complement the paving.
Dim. 60 x 25 cm.

Submerged deck
for basking with your family, friends or in perfect solitude!

Inspiration no. 2 EXCLUSIVE

Because the delights of a pool are not only there to be enjoyed in summer, you can boost or retain the temperature you require for your refuge by using a low shelter like the one protecting this 8 x 4 m pool.

Telescopic low shelter
to secure your pool and
conserve the water's heat.

Corner staircase
Ideal for small
pools thanks to
its compact size.

Inspiration no. 3 EXCLUSIVE

Want to combine exercise and relaxation? Nothing could be easier: opt for a long pool like this 10 x 4 m model, where you can swim comfortably to your heart's content.

And... with the workout out of the way, why not round it off with a siesta in the sun?

Thick travertine coping

Ideal for protecting the pool and avoiding the need for a deck around the pool.
Dim. 61 x 33 cm.
Thickness: 8 cm.

Built-in filtration unit PF.I 181

The latest of the Desjoyaux range. Refined design and great technological innovation.

MY PROJECT

MY PROJECT STEP BY STEP

Desjoyaux project manager for the past 15 years, takes us through the installation of a pool.

1

MARKING OUT AND EARTHWORKS

“This is when the marking out and earthworks are carried out in line with the shape and size of the pool.”

INSTALLATION OF THE STRUCTURES AND THE FILTRATION UNIT

“Then we position the blocks, the wire mesh in the bottom of the pool and install the casing structures, pre-assembled in our factory, as well as the filtration unit. Once the structure and filtration unit have been installed, we install rubans in chimneys and the top and bottom wall ties.”

2

3

POURING THE POOL

“We then pour the concrete in a single operation (bottom and walls) to produce a single-piece, free-standing structure. A smooth finishing screed is then applied.”

4

BACKFILLING

“Once the blocks of the deck shoring have been positioned, the infilling can be carried out.”

5

LAYING THE COPING

“We then lay your coping and paving to create a unique setting around your pool.”

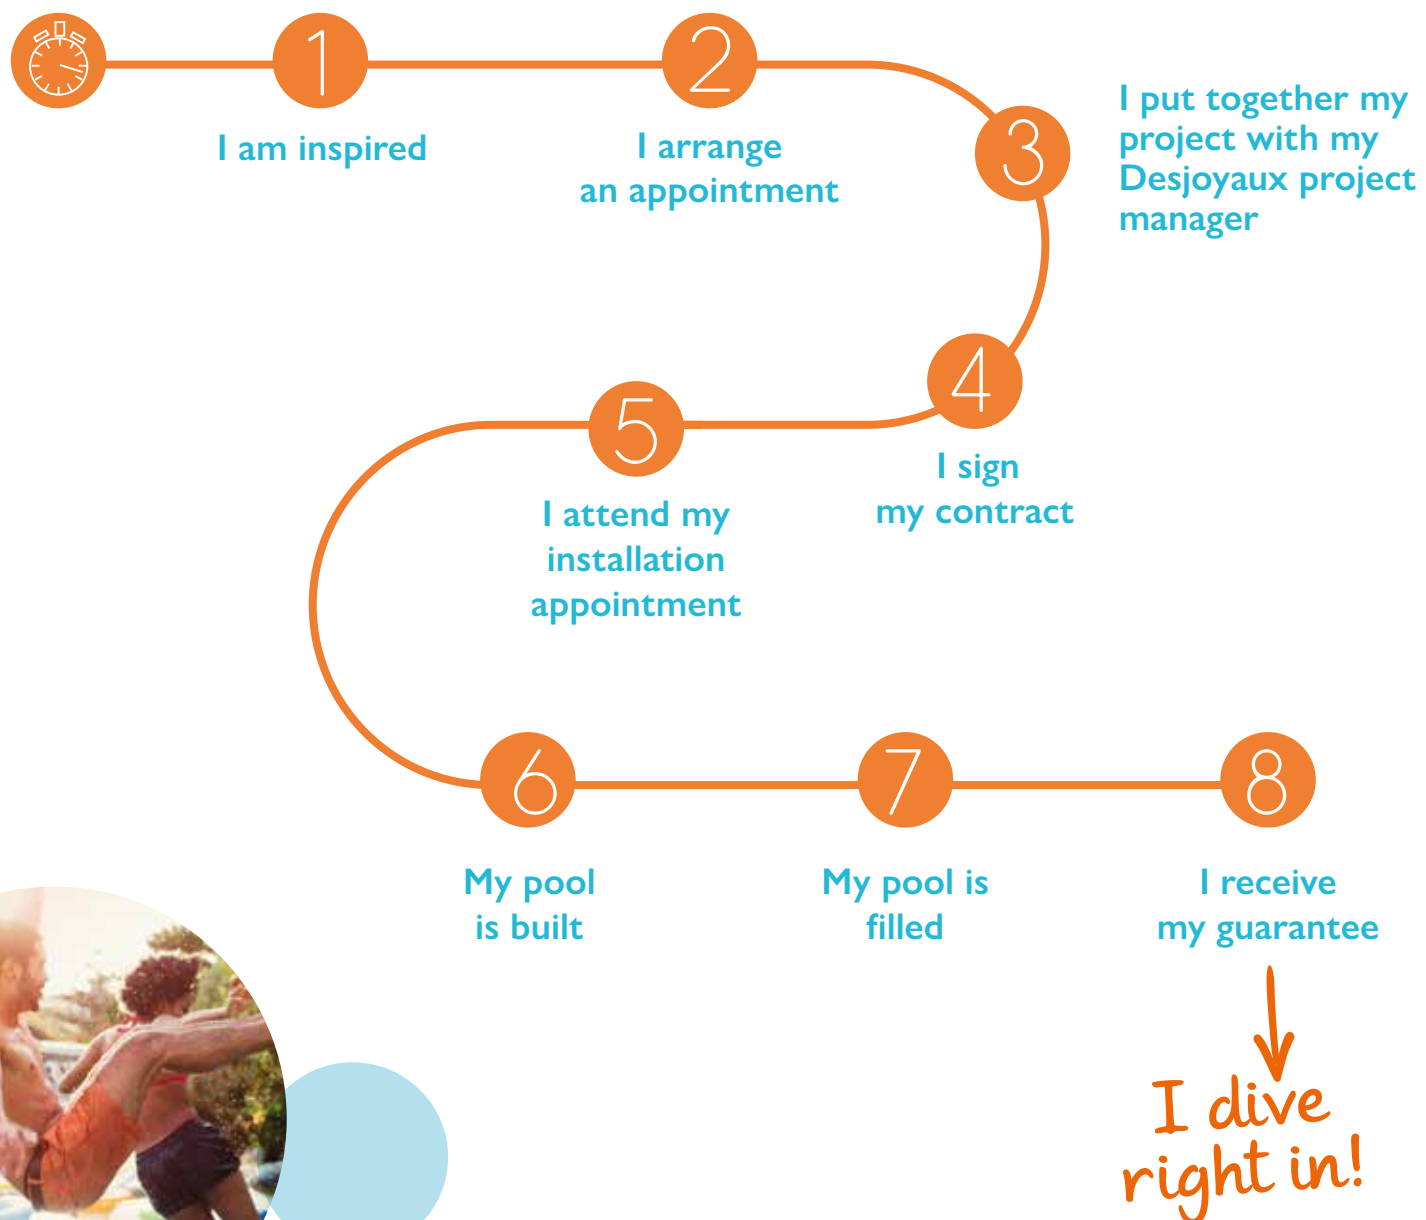

6

INSTALLING THE LINER AND ELECTRICAL CONNECTION

“Lastly, we install the liner that you have chosen. Once the filtration unit is connected, you are ready to enjoy your pool!”

My project

DESJOYAUX'S FIVE GOLDEN RULES

- 1- Confirm correct integration
- 2- Clear contractual undertakings
- 3- Longevity of the structure
- 4- Unique guarantees
- 5- Proximity service
